Laura Suarez, MD
- 4:00pm **Depression, Dementia or Both?** –
Melanie Gentry, MD
- 4:45pm **Poster Session Winners Announced**
- 5:00pm Adjourn

Overview

Psychiatrists strive to see our patients in 3D; each person a complex interface of the biological, psychological, and social. We are just beginning to grasp the multidirectional interactions between mind, mood, and metabolism. The MPS Fall meeting will focus on 3 "D's" critical in modern medicine: depression, dementia and diabetes.

Depression worldwide results in 12 billion workdays lost per year. Depression is associated with roughly double the risk of developing dementia. There are 10 million new cases of dementia in the world each year. The 2024 projected cost of dementia care in the US is \$360 billion. Diabetes afflicts 422 million people across the globe and causes 1.5 million deaths/year, steadily increasing. Almost 40% of American adults have prediabetes. (Sources: NIH, WHO, Alzheimer's Association)

Societal inequities play a large part in the severity of these 3 illnesses, as well as in access to care. Addressing these challenges can feel overwhelming, but recent research and new treatments provide hope. We are learning more about the microbiome, gut and brain health, and metabolism. We are in the dawn of the GLP-1 agonist era. We are finally seeing FDA approved medications for Alzheimer's disease.

Join us in October as our psychiatric community comes together to address these critical health problems of our time. Forge new professional and social connections at MPS this fall, as we celebrate our organization's 50th anniversary.

Accreditation and Designation Statement

In support of improving patient care, this activity has been planned and implemented by American Psychiatric Association (APA) and MN Psychiatric Society. The American Psychiatric Association (APA) is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

The APA designates this live activity for a maximum of 7.5 AMA PRA Category 1 Credit™. Physicians should claim only credit commensurate with the extent of their participation in the activity.

October 26, 2024 MPS Fall Symposium, Psychiatry in 3D: Depression, Dementia & Diabetes

MAIL IN REGISTRATION

First Name * _____		
Last Name * _____		
Street Address * _____		
Address Line 2 _____		
City * _____	State * _____	Zip Code * _____
Phone Number _____	Email Address * _____	
Guest Name _____	Guest Name _____	
Guest Name _____	Guest Name _____	

Registration includes meals and digital materials. Paper copies may also be pre-order for \$15. Enter number of registrants below.
