Check-in 7:30, Program 8am - 5pm

Novel Approaches to Psychiatry

[Register online](#)

Overview

Psychiatry is constantly seeking answers and exploring new approaches to be able to offer patients as many tools as needed. This conference will focus on novel approaches to psychiatry, from pharmacological interventions and psychedelics to innovations in neuromodulation, behavioral interventions and digital therapeutics including cognitive learning, and novel care delivery models. Participants will engage in inter-disciplinary learning, exchange ideas and consider expanded pathways to implement in practice.

"Novel Approaches to Psychiatry"

7:30-8am	Check-In – Get name tags and breakfast, network, reconnect, visit exhibits
8-8:15am	Welcome, Overview, MPS Fall Program Chair Matt Kruse, MD
8:15-9:15am	Therapeutic Applications of Psychedelics, Jessica Nielson, PhD
9:15-10:15am	Flash Talks – New FDA-Approved Therapies, Moderator Lora Wichser, MD
10:15-10:30am	BREAK, Exhibits
10:30-11:30am	Neuromodulation & Addiction, Kelvin Lim, MD
11:30-11:45am	2021 Paul Wellstone Award Presentation, MN Representative Kelly Morrison, MD
11:45am-12:30pm	LUNCH, Exhibits
12:30-1:30pm	Advances in Neuromodulation for Psychiatric Practice, Where We're Headed, Brent Nelson, MD
1:30-2:30pm	KEYNOTE: Promoting Cognitive and Neural System Recovery in Early Psychosis, Sophia Vinogradov, MD, DFAPA
2:30-2:45pm	BREAK, Exhibits
2:45-3:45pm	Brain Stimulation Advances for the Treatment of Adolescents with Depression, Paul E. Croarkin, DO, DFAPA
3:45-4:05pm	Digital Apps for Clinical Practice – What you need to know, Nathan Tatro, MA
4:05-4:35pm	The EmPATH Unit – Early Implementation and Initial Findings, Larry Hook, MD, FAPA; Beth Heinz, MHA, MSW
4:35-4:55pm	CCBHCs – Psychiatry's Role in Transforming Clinical Care, Pahoua Yang, MSSW, PhD, LICSW, LP
4:55-5:00pm	Summary of the Day, Matt Kruse, MD

Educational Objectives – At the end of the educational activity, the learner will be able to:

- Review current and emerging technologies and therapies and describe their application and fit for patients in psychiatric clinical practice.
- Compare Innovations in pharmacological interventions as well as psychedelics in practice.
- Evaluate behavioral interventions and digital therapeutics to determine their fit for patients in treatment.
- Discuss innovative health care delivery models including the psychiatrist's role in their success adoption.

Who Should Attend

This educational activity is intended for psychiatrists, primary care physicians, psychologists, social workers, physician assistants, registered nurses, advanced practice nurses, and clinic administrators, all mental health professionals and general health professionals, including students, residents and fellows.

Accreditation

The APA designates this live activity for a maximum of 7.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Exhibitors

American Professional Agency, Inc. – Intra-Cellular Therapies – Minnesota Mental Health Community Foundation & FastTrackerMN – Professional Risk Management Services, Inc.
